Springfield Plastics Opens New Agricultural Pipe Yard in Humboldt, Iowa

Auburn, Illinois – October 24, 2017 - With increasing demand from its customers to bring quality drainage pipe to the north central Iowa area, Springfield Plastics, Inc. (SPI) is proud to announce it will open a new pipe yard in Humboldt, Iowa in late fall 2017. As a long-standing manufacturer of drainage pipe and the only U.S. manufacturer certified to use only 100% virgin resin in all products, Springfield Plastics is committed to providing the farming industry with the best quality pipe available. Low crop prices and steady input costs are causing farmers to feel the pressure to produce the best crop possible and quality drainage is the first step.

Springfield Plastics, Inc is excited to introduce their products to this highly productive agricultural area. Steve Baker, President of SPI says, “The demand for the company’s higher quality drainage pipe continues to broaden out over the Midwest from its’ home base in Illinois. We are different than other pipe companies in our focus on agriculture. Agriculture has been our business for nearly 40 years and continues to be our focus.”

At Springfield Plastics, the goal is to provide a quality drainage system for our customers. SPI only uses 100% virgin materials and the highest quality standards in the production of its drainage pipe in order to meet this goal. Springfield Plastics takes its commitment to providing quality drainage products very seriously. Part of this commitment is requiring the use of 100% virgin materials in all of its drainage pipe and fittings. By requiring this, we provide peace of mind to our customers, as they know they are receiving the highest quality and consistency available in today's drainage market.

Springfield Plastics 100% Virgin Resin pipe is built to withstand the harshest elements and last for generations. With SPI products, there will be no blowouts, no cracks when unrolling, no soft spots, and minimal couplers per roll. SPI pipe demonstrates high flexibility, but remains the strongest pipe on the market. Springfield Plastics believes that what’s in your drainage pipe does matter and your success depends on it.

Springfield Plastics, Inc. based in Auburn, Illinois is a Midwest manufacturer that has created plastic pipe solutions for people in the agricultural, residential/building, commercial and highway markets since 1978. Springfield Plastics, Inc. is the only U.S. manufacturer certified to use only 100% virgin resin in all products that provide peace of mind through the highest quality and consistency available in today’s drainage market.
